# Fiberglass Doors

## - Specials -

- Fiberglass doors are extremely durable and resist: denting, splitting, cracking and warping.
- Composite top and bottom rails will not rot and keep water from entering the door while preventing the build up of mold or mildew.
- Full length composite capped LVL stiles for structural integrity and ease of machining - will not rot like wood edge stiles.

- 1 Injected polyurethane foam core provides up to four times the insulating R-value of wood.
- 2 Durable, high performance fiberglass skins.
- 3 LVL stiles with composite edge

**High Definition Panel Embossment**

**Reinforced Lockblock**  
LVL lockblock for strength and security

### Order Quantities

- Product to be ordered in container lots.
- Container options are 40HQ or 20GP.
  - **40HQ** container can hold 715 – 79” doors or 650 – 83” doors ( 50 doors per skid ), to max out container loading 5 doors would be loaded vertically at the end of each pallet when ordering 79” doors.
  - **20GP** container can hold 306 - 79” doors or 276 – 83” doors ( 46 doors per pallet )

### Pallet and SKU Quantities:

- Minimum order per pattern / per size is ten doors.
- Doors to be ordered in full pallet quantities.

### Lead Time

- Allow 30 to 40 days lead time until product is ready to ship.
- Once product is ready to ship factor in a typical ocean transit time, to your door, of 30 days.

### Pricing

- All shown pricing is net, tax out, duties out, FOB China.
- Approximate cost of duties brokerage and delivery would be \$11.50 per door.
- All pricing is in U.S. dollars.
- Prior to order placement Kits glass will provide an “all in” ( freight, duty, taxes etc ) transport cost to your door so you can calculate your shipping cost per door.

### Payment

- 50% with order.
- 25% on presentation of BOL (Bill of Lading)
- Final payment within 10 days of receipt of goods.

### Options

- Doors can be machined and cut out to your specifications – pricing available upon request.
- Decorative glass can be provided and installed into the doors.
  - Decorative glass patterns can be based on your designs or selections from our collections.
  - Our glass frames are high performance ABS that are designed for staining.
  - Installation of glass will reduce the amount of doors you can fit in a container.
